Matching Grant # 71747

Provide Eye Medical Services to the Community

Cataract is the main reason of blindness in India.

A survey put the blind in India at 12 million, out of which 62.6 percent of sightlessness is due to cataract.

Normal, clear lens

Lens clouded by cataract

A cataract is an opacity of the normally clear lens which may develop as a result of aging, metabolic disorders, trauma or heredity

200 Cataract surgeries to be done free of cost for the resource constrained patients. These surgeries will be done for the patients from villages nearby Jalna. Surgeries will be done at subsidized cost by Shri Ganapati Netralaya (Hospital), Jalna

A project partnered by
