Dear Friends,

Thanks for your check #4562 for \$1,000.00. Your gift will help **4 more** of our brothers and sisters around the world with mobility. We appreciate your continued, grand support. As you can see from the Update below, we continue to regularly load out trailers, semis, and shipping containers full of PETs with your partnership.

Thank You!!!!

PET Update:

*** Steve and Larry went to **Ohio** last weekend and picked up 800+ steel, rear frames made and donated by the Andrew brothers. They come ready to go with the durable, automotive, powder coat paint. On the way to OH they delivered 25 PETs to Operation Classroom for shipment to **Sierra Leone**. We have sent shipments through them before for distribution in **Africa**.

*** We boxed 41 PETs last week. We are awaiting paper work on a 40' shipping container to **El Salvador**.

*** We receive donations of wheelchairs that were very expensive when purchased, and many are like new. A family here in town has a daughter who was born with severe problems, and they have purchased expensive chairs and devices for her as she grew. We have received the old wheelchairs, like new. They probably cost from \$1,500 and upward. Hope Haven International Ministries in **Iowa** will receive them and place them where needed. We send them 100 or more wheelchairs a year plus used foldable walkers, canes and crutches. They distribute our PETs around the world.

We now build about 35 PETs each week. That is what your dollars do. We are proud to turn your donations into such wonderful gifts for those most in need.

Faithfully,

Kathy Maynard
